DECLARATION

We hereby declare that the SRS, submitted along with the **Software Engineering (2101CS503)** for entitled “**R.T.O. Learning License Practise Test**” submitted in partial fulfillment for the Semester-5 of **Bachelor Technology (B. Tech)** in **Computer Science and Engineering (CSE)** Department to Darshan University, Rajkot, is a record of the work carried out at **Darshan University, Rajkot** under the supervision of **Devangi Kotak** and that no part of any of report has been directly copied from any students’ reports, without providing due reference.

Khunt Karan K.

ACKNOWLEDGEMENT

I wish to express my sincere gratitude to my project guide Prof. **Devangi Kotak** and all the faculty members for helping me through my project by giving me the necessary suggestions and advices along with their valuable co-ordination in completing this work.

I also thank my parents, friends and all the members of the family for their precious support and encouragement which they had provided in completion of my work. In addition to that, I would also like to mention the Darshan University personals who gave me the permission to use and experience the valuable resources required for the project from the University premises.

Thus, in conclusion to the above said, I once again thank the faculties and members of **Darshan University** for their valuable support in completion of the project.

Thanking You

Khunt Karan K.

Abstract

R.T.O. Driving Test System is use for before R.T.O. exam People are learn MCQ and give Exam like Real exam.

This Project has Many information Which are generally People are not Know like license Procedure, Driving Law R.T.O Code and office's address, Fitness of vehicle, PUC information etc.

It has also a facility where people are use application in their language.

1 Introduction

1.1 Product Perspective

In this Project learn and Practice MCQ with category like TRAFFIC SIGNS BOOKMARKS etc.

It has all Process Information like How to do apply for new Driving license How to Renewal of Driving Licence.

1.2 Product Features

- People are use application in their language
- User are give exam like same as R.T.O exam.
- People learn R.T.O MCQ of their State
- People are learn MCQ with Category.
- application has Bookmark features.
- User find RTO Code and RTO office address
- User are visit their state RTO web site.
- people are check all RTO Procedure like New DL, PUC, Renewal of DL their steps

1.3 Functional Requirement

- **Question Bank:** user are all question read.
- **Practice:** user are Practice for question answer.
- **Exam:** user give exam like R.T. O. real Exam
- **License Procedure:** Find the complete Process on how to apply for License.
- **Driving Law:** ACCESS a complete list of various driving laws and their Penalties
- **RTO Code & office:** You can search for RTO Codes across Various states and cities of India
- **Statistics:** Driving Licence, vehicle Population, Road Accidents about information.
- **FAQ:** Some Important Document For Driving Vehicle
- **Language selection:** user are select their State Language.

1.4 Non-Functional Requirement

1.4.1 Usability

- The UI should be easy or comfortable for use for everyone.
- People can select their language.

1.4.2 Accuracy

- All question and answer should be Connect.
- All RTO Office information are correct and consistency.

1.4.3 Availability

- Internet is require for using the application.

1.4.4 Maintainability

- The software should easily maintain and should easily add new features and make Changes.
- The Software should be updated as needed. to fix bugs and improve performance.

2 Design and Implementation Constraints

2.1 Use-case diagram

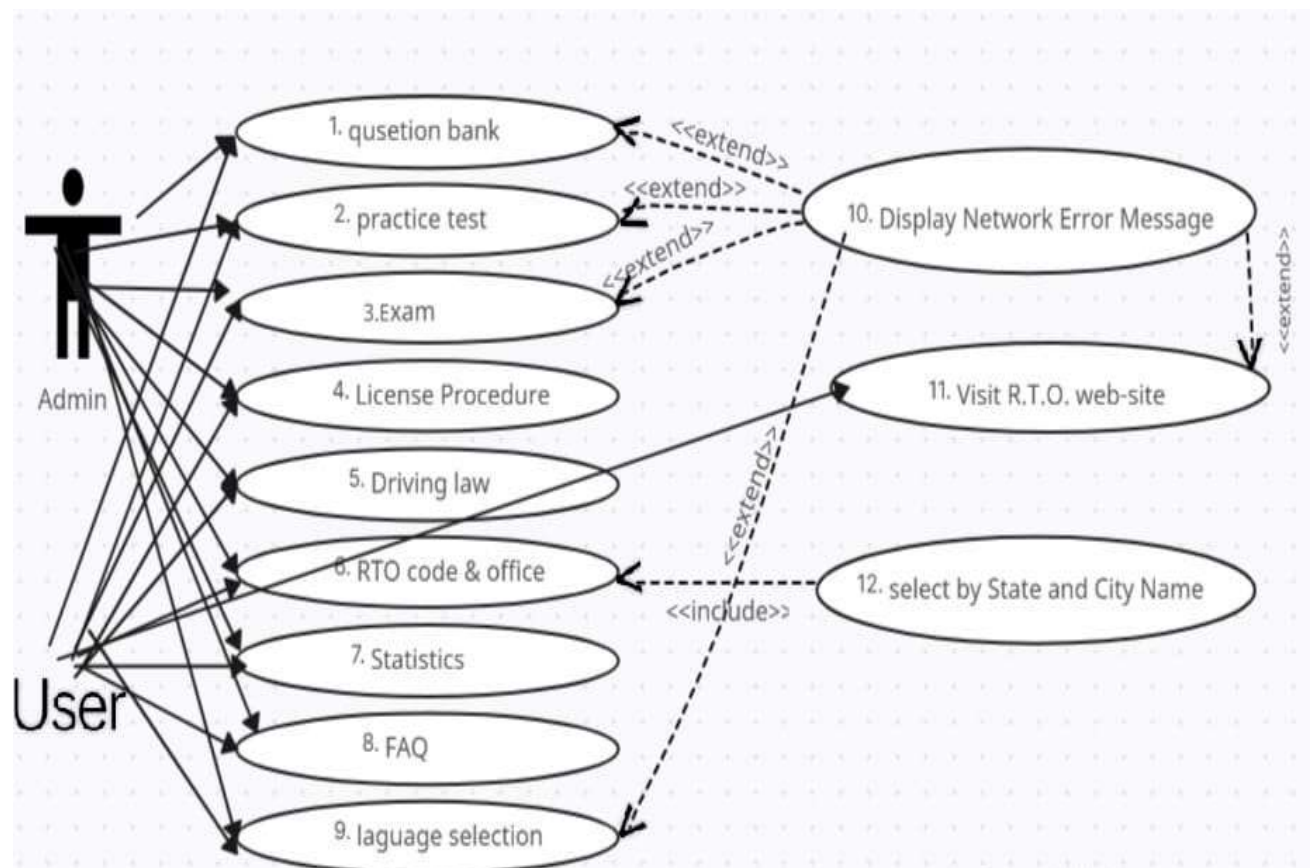

Figure 2.1- 1 Use case diagram for RTO learning licence practice test

2.2 Activity Diagram

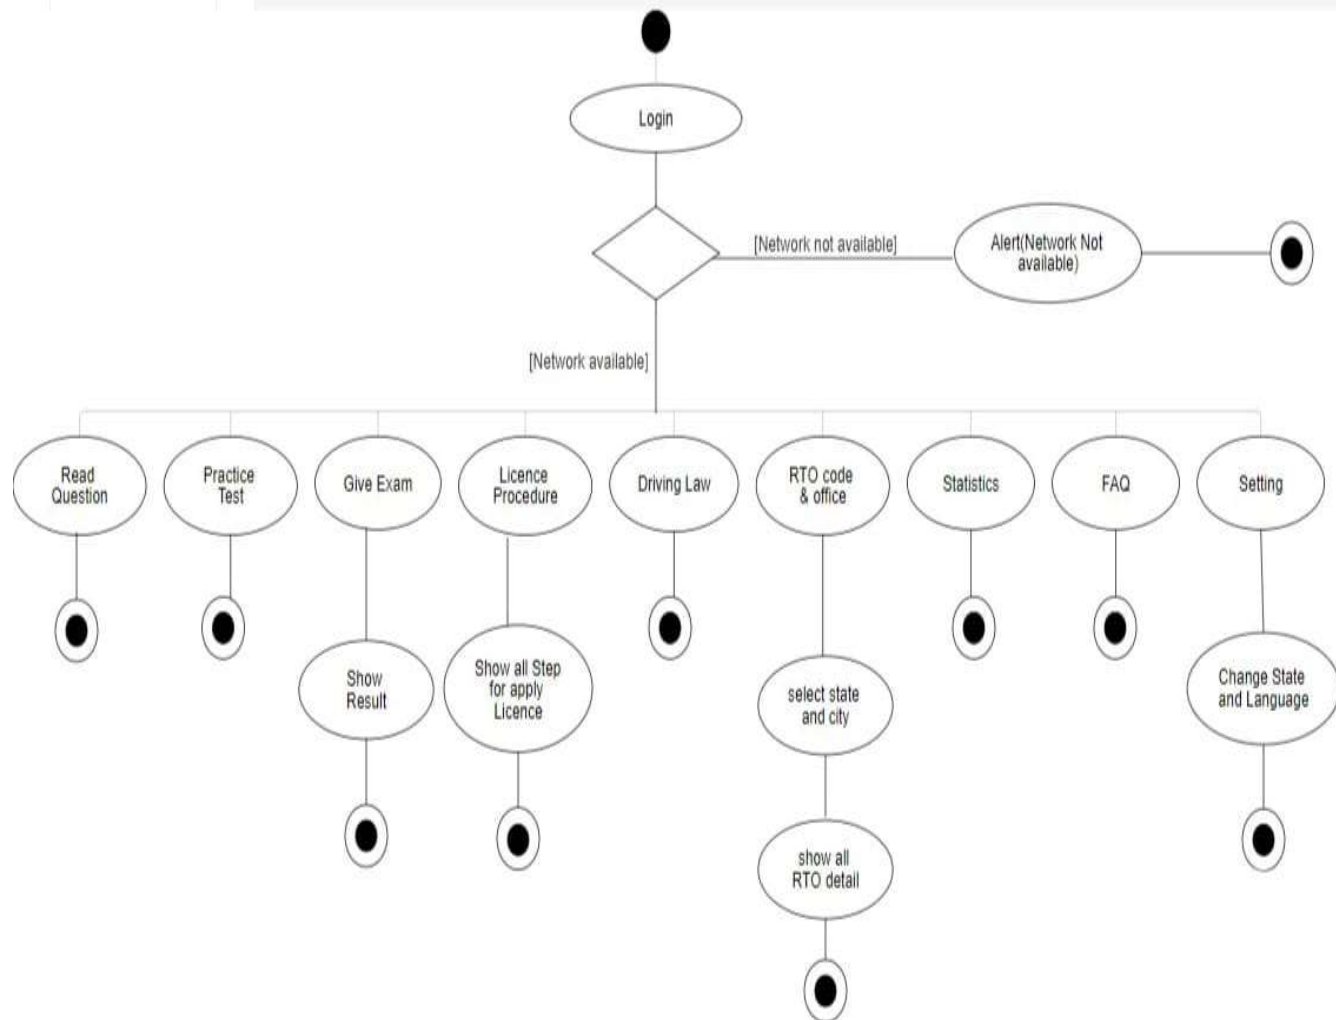

Figure 2.2- 1 Activity diagram for user

2.3 Swimlane Diagram

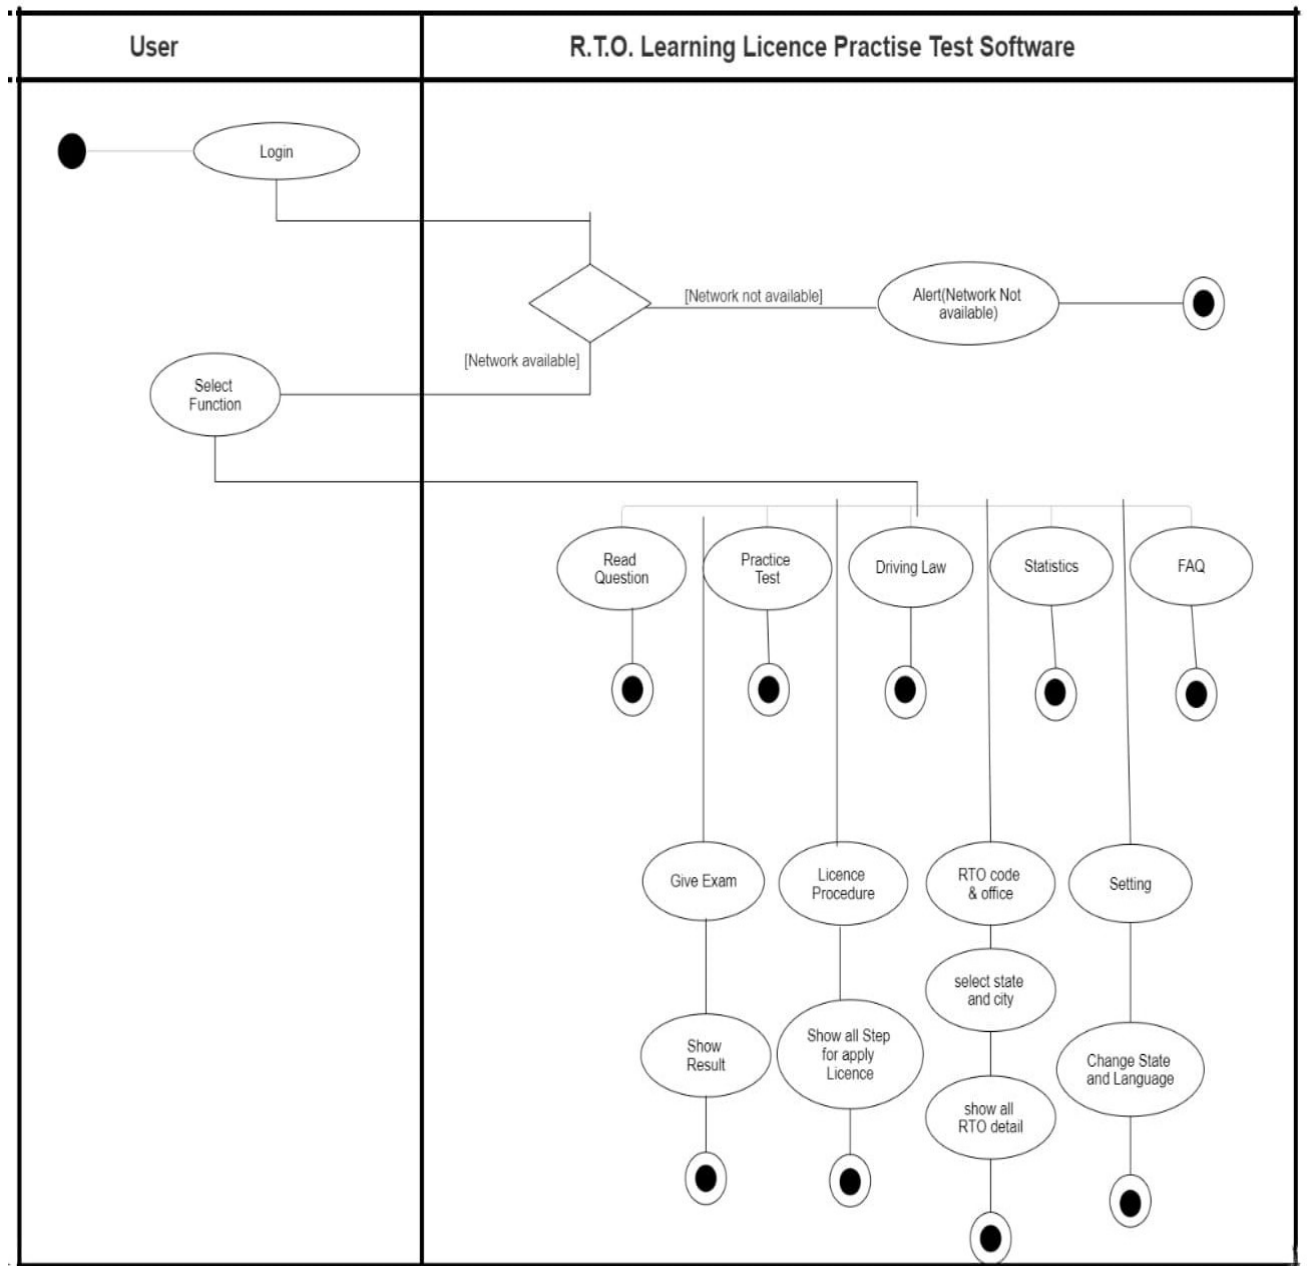

Figure 2.3- 1 Swim lane Diagram for User

2.4 Sequence Diagram for check R.T.O. office detail

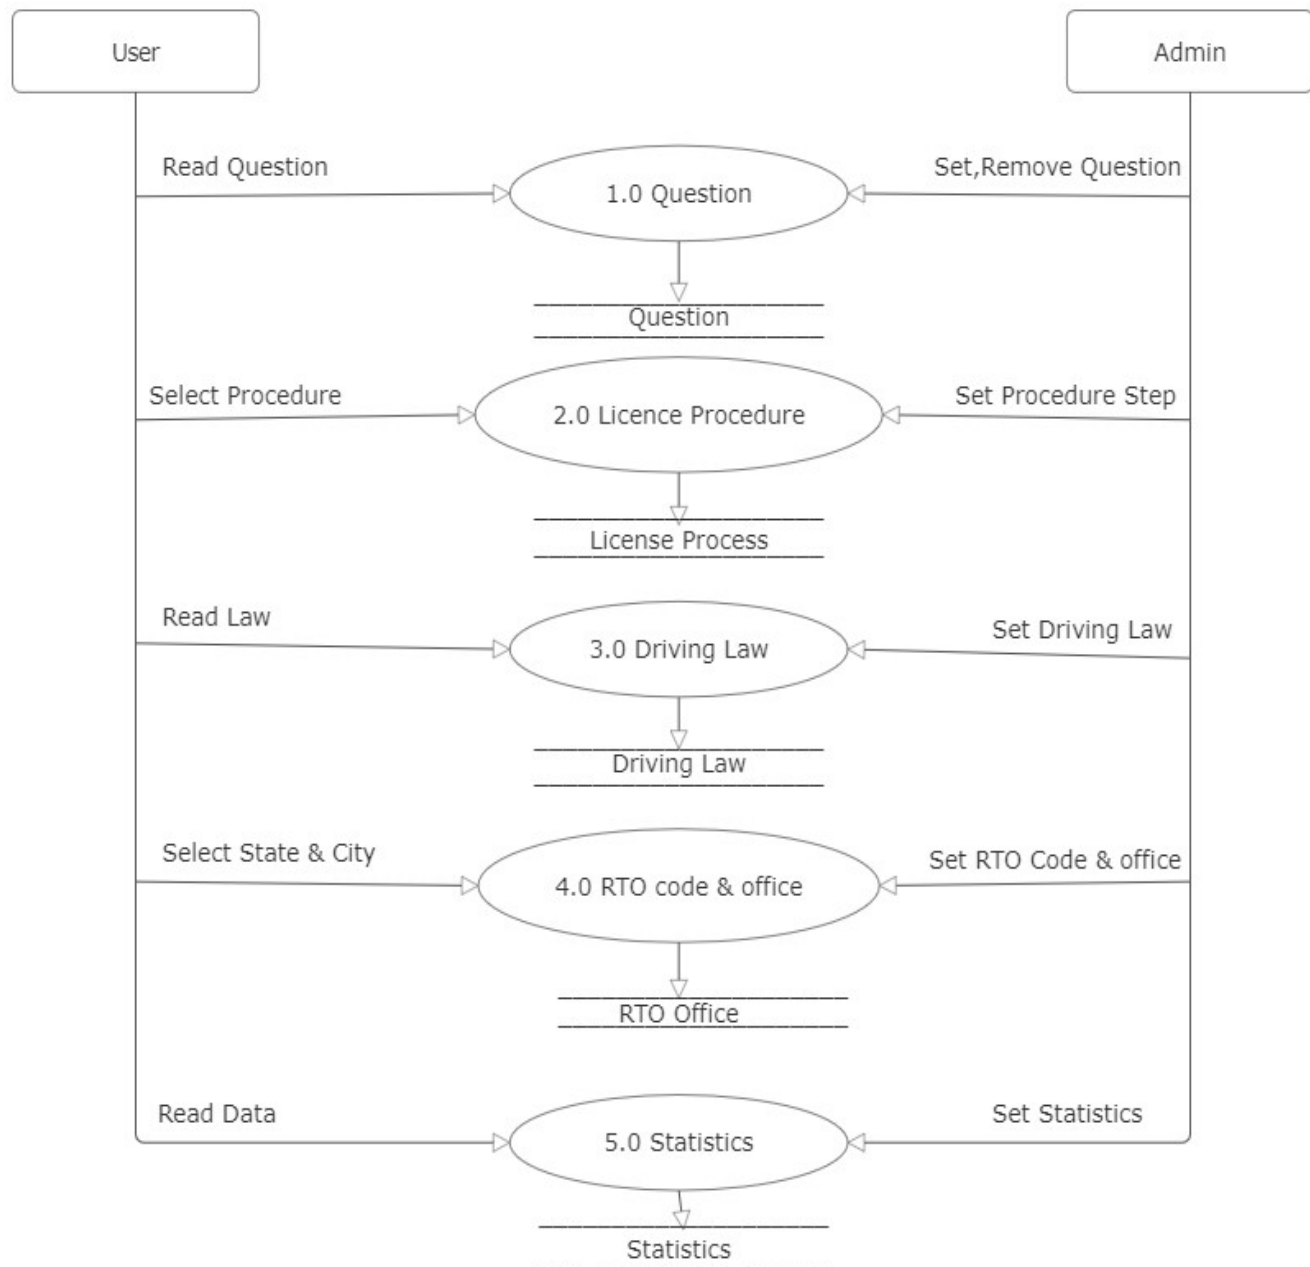

Figure 2.7- 2 DFD level-1 for user

2.7.3 DFD Level-2

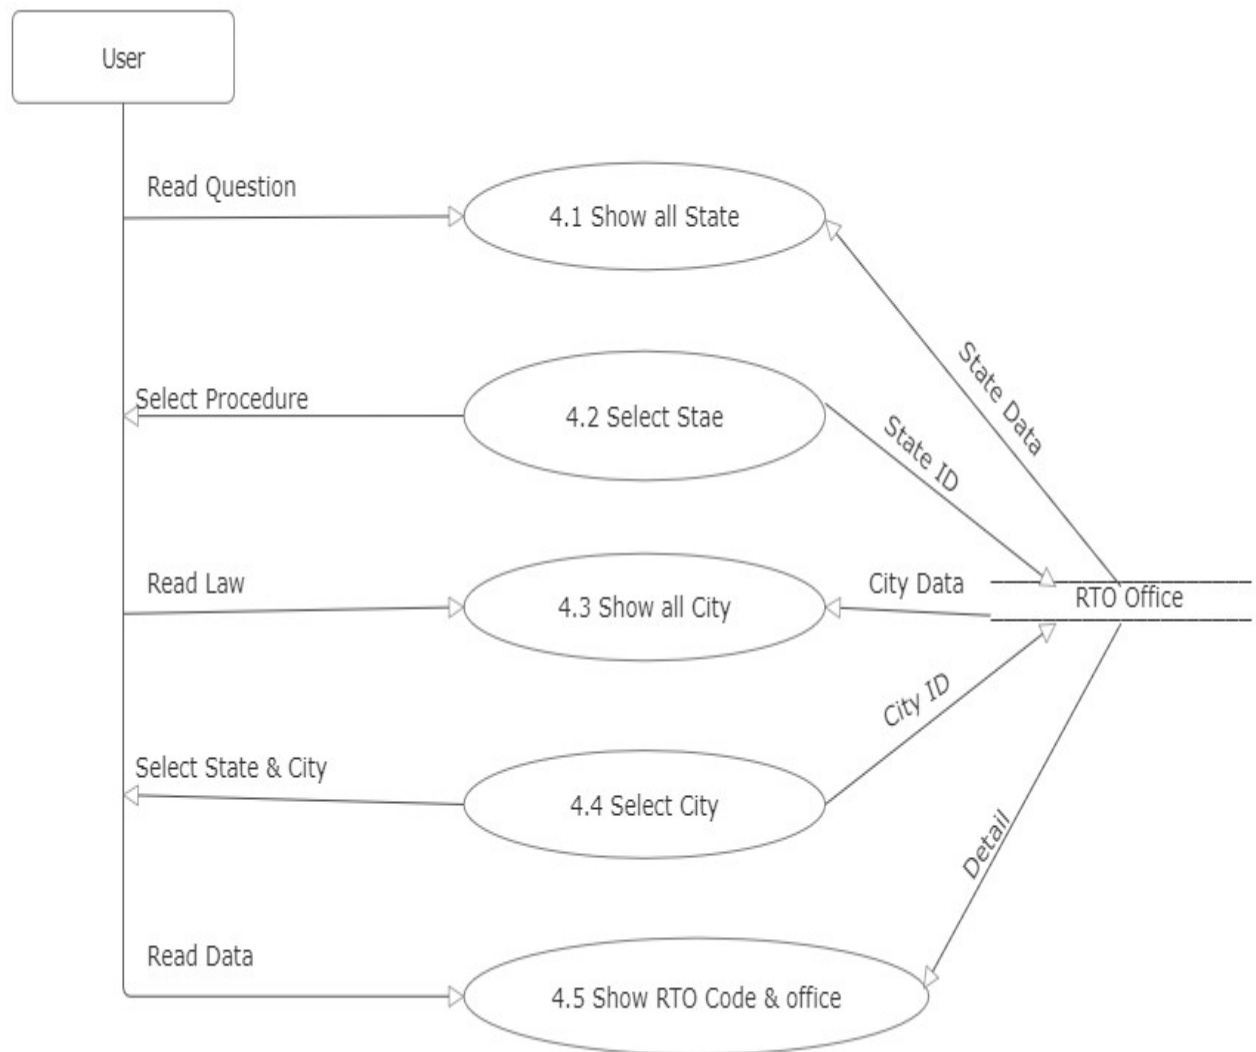

Figure 2.7- 3 DFD level-2 for RTO code & office

3 External interface requirement (Screens)

3.1 Screen-1 : Exam

The screenshot shows a mobile application interface for an exam. At the top, there is a blue header bar with a back arrow, the word "Exam", the progress "5/10", and a timer icon showing "12s". Below the header, the question text is "Q-5 : When a Vehicle is parked on the road side during night". There are three options listed: "A : The park light shall remain lit", "B : gesagaf", and "C : gesagaf". At the bottom, there is a status bar showing a green checkmark with "3" and a red X with "1", and a blue button labeled "Next Question" with a right arrow.

Figure 3.1- 1 Screen-1: Registration Form

Purpose: This Screen in user give exam an after exam also check their result. This is only for Practices Exam.

Table 3.1- 1 Screen element of Exam

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			You just leave the Exam
2	Question No.	Textbox	M	1	Show question No.
3	Timer	Textbox	M	1	How man sec in choose any one option
4	Question	Textbox	M	1	Show question
5	Option	Button	M	N	Three option for question and one is write and other wrong
6	True,False	Textbox	O	1	Show how many question true, false
7	Next Question	Button			When choose to option and time is not finish then switch next question

3.2 Screen-2 Driving License Procedure

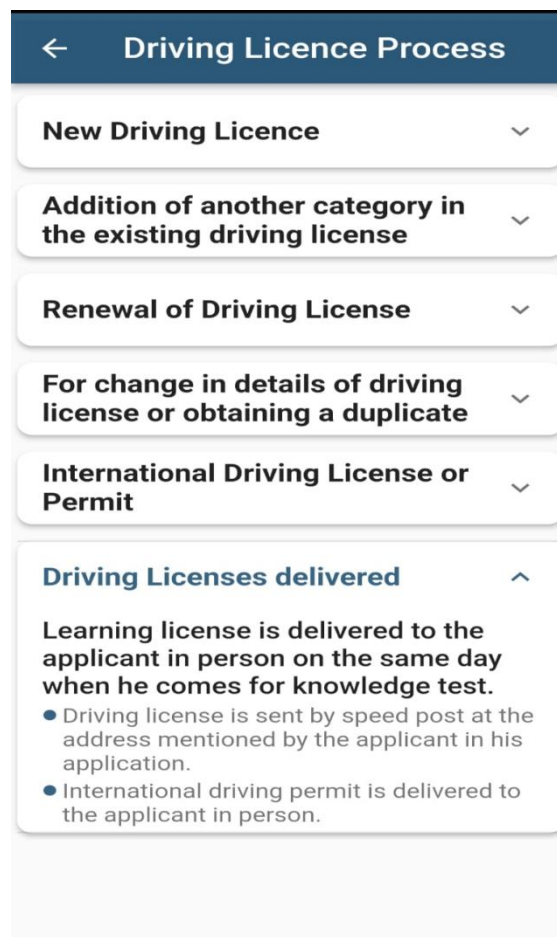

Figure 3.2- 1 Screen-2: Driving License Procedure

Purpose: This module in user are read all the license procedure and which procedure user want to read all step then click on the procedure name.

Table 3.2- 1 Screen element of Driving License Procedure

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	Procedure Name	Dropdown	O	N	All license related procedure show in the page

3.3 Screen-3 RTO Code & office

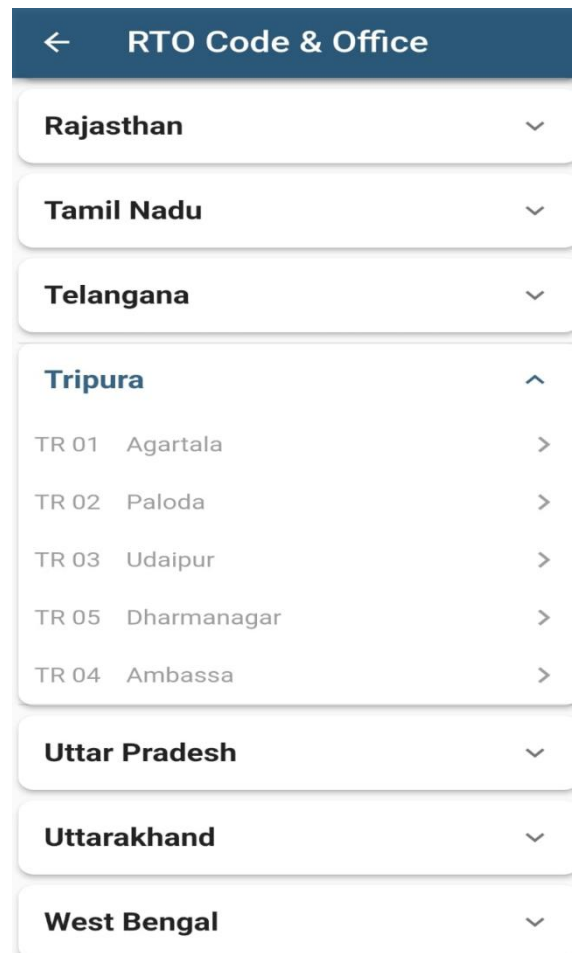

Figure 3.3- 1 Screen-3: RTO Code & office

Purpose: This module use for check RTO office details and RTO code. First of all user select the state and after select their state city and show that city RTO office detail

Table 3.3- 1 Screen element of RTO Code & office

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	State Name	Dropdown	O	N	Show all state name which state user select those city are display and which city select those RTO office detail show

3.4 Screen-3 Home Page

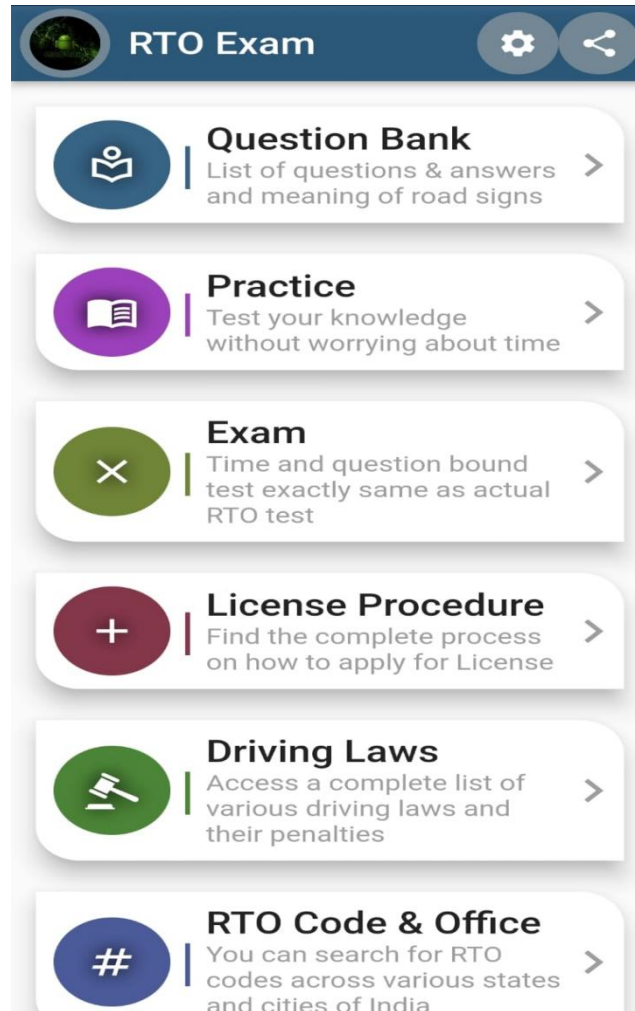

Figure 3.4- 1 Screen-4: Home Page

Purpose: This is a use for choose different functionality in this app it is a home screen of this app.

Table 3.4- 1 Screen element of Home Page

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Setting	Button			On-click to redirect on setting page and you change to state and language
2	Share	Button			On-click to share this app link via, whatsapp,bluetooth,etc.
3	Menu	Button			On-click to redirect to those care page and use those functionality

3.5 Screen-5 Practice

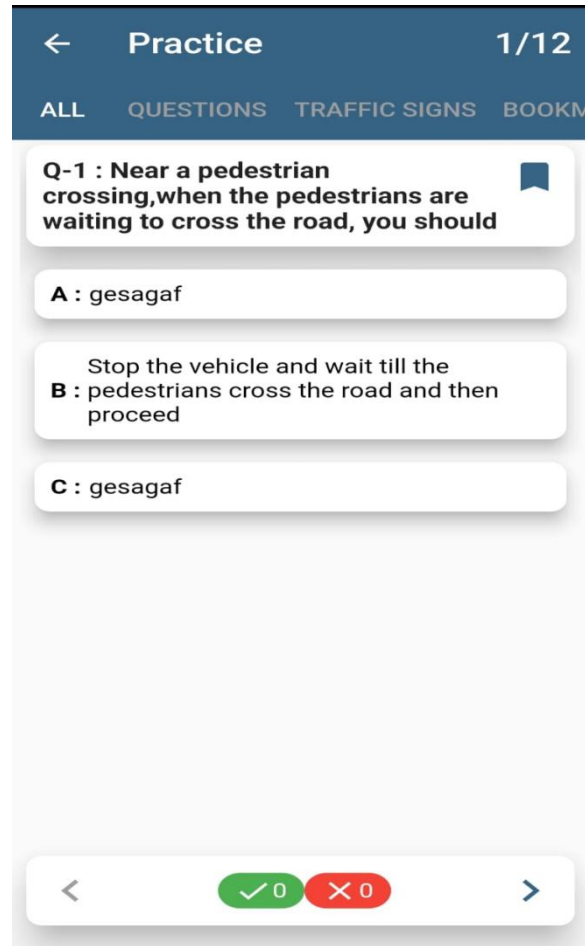

Figure 3.5- 1 Screen-5: Practice

Purpose: it is a practice of question answer this is not a exam but this is practice test in the test you choose one option then show answer at a time

Table 3.5- 1 Screen element of Practice

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	Question Type	Button			Which type you want to read question and classification of question
3	Question	Textbox			This is Question
4	Option	Button	M	1	You are select any one question for answer
5	Result	Textbox			Show result

3.6 Screen-6 FAQ

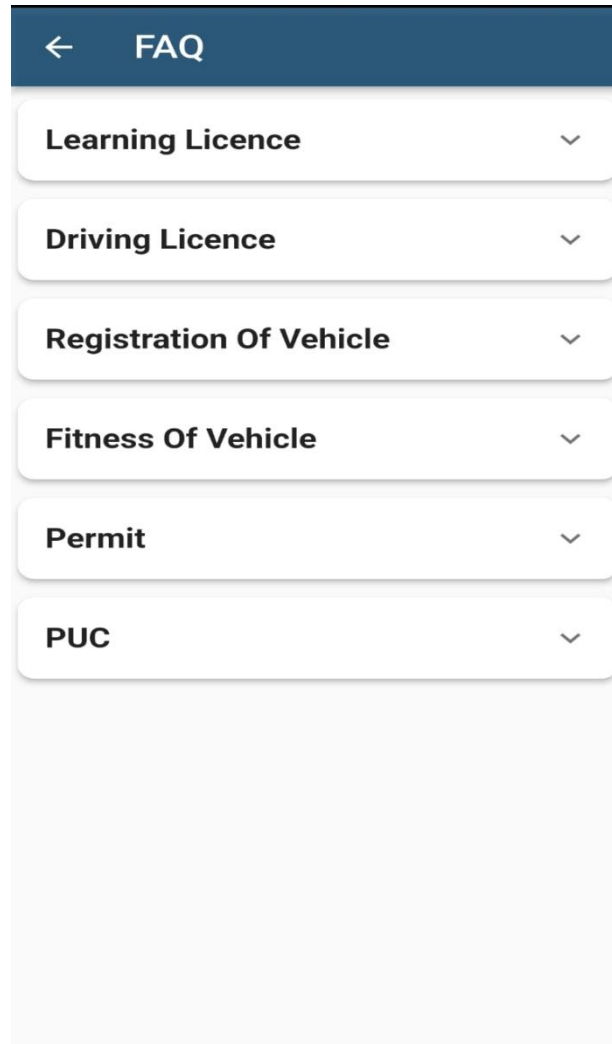

Figure 3.6- 1 Screen-6: FAQ

Purpose: this screen include a procedure of some document of the vehicle. You choose any one for more detail.

Table 3.6- 1 Screen element of FAQ

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	FAQ Name	Dropdown	O	N	That is different process information which process read want to you those process on click then show whole information

3.7 Screen-7 Driving Laws

← Driving Laws	
Offences	Penalty
Driving without a Valid Licence	Rs.500/-
Not carrying documents as required	Rs.100/-
Driving without Valid Insurance	Rs.1000/-
Driving without Valid Permit	Rs.5000/-
Driving without Valid Fitness	Rs.5000/-
Vehicle without R.C.	Rs.2000/-
Use of Offensive Number Plate for vehicle used in driving	Rs.100/-
Disobeying Traffic Police Officer in	Rs.100/-
Driving against Police Signal	Rs.100/-

Figure 3.7- 1 Screen-7: Driving Laws

Purpose: In this screen show offence and that offence for a penalty for driving laws

Table 3.7- 1 Screen element of Driving Laws

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	Offence	Textbox			Offence side all card in name of offence
3	Penalty	Textbox			Penalty side all card in penalty for left side offence

3.8 Screen-8 Question Bank

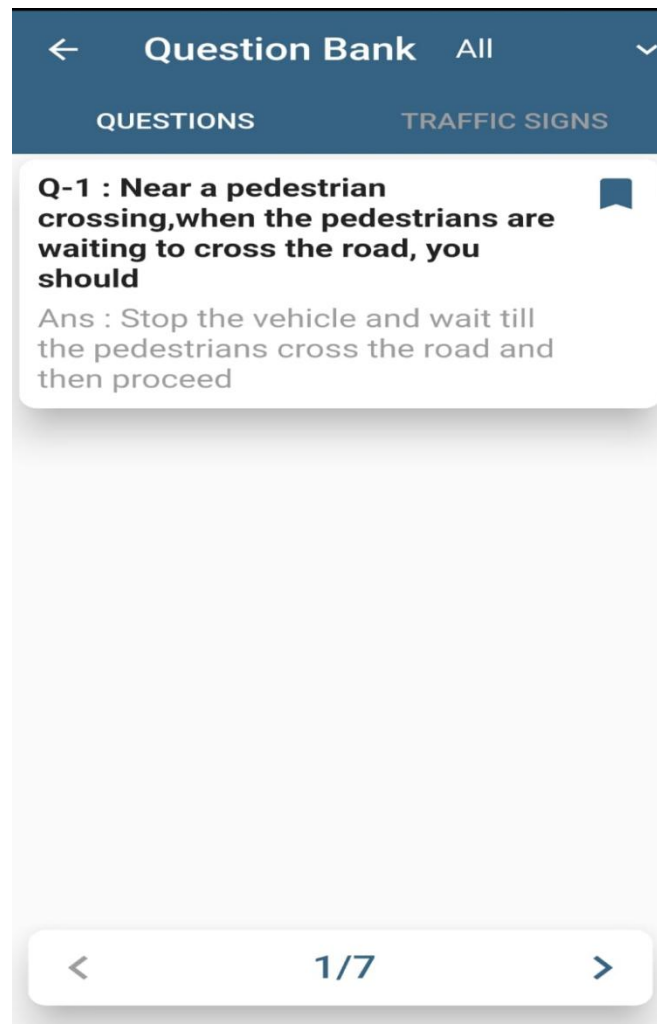

Figure 3.8- 1 Screen-8: Question Bank

Purpose: in this screen you read question answer if you want to read only traffic sign read then tick traffic sign read then tick traffic sign and all question is related to traffic sign

Table 3.8- 1 Screen element of Question Bank

Sr.	Screen Element	Input Type	O/M	1/N	Description
1	Back Arrow	Button			Back from this page
2	All	Dropdown			Choose you want to those type question you want to read
3	Question	Select			Choose type of question
4	Card	Textbox			Read the question answer
5	Arrow	Button			Change the question prevuos and next

4 Database Design

4.1 List Of Tables

- Question
- Licence Process
- Driving Law
- RTO Office
- Statistics
- Admin
- User

UserEmail	Varchar(50)	AN		
Contact	Number(10,0)	AN		
Password	Varchar(50)	NN		

5 Story & Scenario

5.1 Story-1: Read RTO Office Detail

Story # S1	: As a user, I want to read RTO office code and other detail, So that a true information for RTU office of particular city.
Priority	: Medium
Estimate	: xL
Reason	: The development of a RTO Detail page is an important and crucial task in the RTO Driving Practice Test System.

5.1.1 Scenario# S1.1

Scenario# S1.1	:	Retrieve RTO Office Code and Details for a City															
Prerequisite	:	Internet connection required															
Acceptance Criteria	:	<p>Given: the user wants to find information about an RTO office.</p> <p>When: the user provides the name of a city, "City Name".</p> <p>Then: the system should look up the RTO office details for "City Name"</p> <p>And the system should provide the following information:</p> <table><tr><td> RTO Office Code</td><td> RTO Office Name</td><td> City</td><td> State</td><td> </td></tr><tr><td> ABC-123</td><td> Sample RTO Office 1</td><td> CityName</td><td> StateName</td><td> </td></tr><tr><td> XYZ-789</td><td> Sample RTO Office 2</td><td> AnotherCity</td><td> AnotherState</td><td> </td></tr></table> <p>And the system should display a message indicating the search was successful</p>	RTO Office Code	RTO Office Name	City	State		ABC-123	Sample RTO Office 1	CityName	StateName		XYZ-789	Sample RTO Office 2	AnotherCity	AnotherState	
RTO Office Code	RTO Office Name	City	State														
ABC-123	Sample RTO Office 1	CityName	StateName														
XYZ-789	Sample RTO Office 2	AnotherCity	AnotherState														

5.1.2 Scenario# S1.2

Scenario# S1.2	: Search for RTO Office Information with Invalid City
Prerequisite	: Internet connection required
Acceptance Criteria	Given: the user wants to find information about an RTO office. When: the user provides an invalid city name, "InvalidCity". Then: the system should notify the user that the city "InvalidCity" is not found And the system should not display any RTO office details.

5.1.3 Scenario# S1.3

Scenario# S1.3	: Retrieve Multiple RTO Offices for a City.												
Prerequisite	: Internet connection required												
Acceptance Criteria	<p>Given: the user wants to find information about RTO offices in a city And the user provides the name of a city, "CityName".</p> <p>When:the system looks up the RTO offices in "CityName"</p> <p>Then : the system should provide a list of RTO offices in "CityName"</p> <p>And the system should display the following RTO office information:</p> <table><tr><td> RTO Office Code </td><td>RTO Office Name</td><td> CityName </td></tr><tr><td> ABC-123</td><td> Sample RTO Office 1</td><td> CityName </td></tr><tr><td> XYZ-789</td><td> Another Sample RTO Office </td><td>CityName </td></tr><tr><td> DEF-456</td><td> Yet Another RTO Office</td><td> CityName </td></tr></table> <p>And the system should indicate the total number of RTO offices found: 3</p>	RTO Office Code	RTO Office Name	CityName	ABC-123	Sample RTO Office 1	CityName	XYZ-789	Another Sample RTO Office	CityName	DEF-456	Yet Another RTO Office	CityName
RTO Office Code	RTO Office Name	CityName											
ABC-123	Sample RTO Office 1	CityName											
XYZ-789	Another Sample RTO Office	CityName											
DEF-456	Yet Another RTO Office	CityName											

5.2 Story-2: Demo Exam

Story # S2 : **As a user,**
I want to give exam to like a RTO test exam
So that I Want all thing is like a real exam.

Priority : High

Estimate : XXL

Reason : Development of the Exam page is an important and main part of this project. In this page developer should all things to take test

5.2.1 Scenario# S2.1

Scenario# S2.1 : Start and Complete an RTO Test Exam

Prerequisite : Internet connection required

Acceptance : **Given:** the user wants to take an RTO test exam

Criteria **When:** the user begins the exam

Then the system should present the first exam question And the user should select an answer to the question When the user submits the answer Then the system should present the next exam question And this process should continue until all questions are answered When the user answers the last question and submits it Then the system should end the exam And the user should receive a score and feedback And the system should provide an option to review the exam results

5.2.2 Scenario# S2.2

Scenario# S2.2 : Review Exam Results

Prerequisite : Internet connection required

Acceptance : **Given:** the user has completed an RTO test exam And the user wants to review the exam results.

Criteria **When:** the user selects the option to review the exam results.

Then the system should display a summary of the exam And the user should see their score and pass/fail status And the user should be able to review each question and their answers And the user should see correct answers for each question And the system should provide feedback on incorrect answers

5.2.3 Scenario# S2.3

Scenario# S2.3 : Take an RTO Test Exam with a Time Limit

Prerequisite : Internet connection required

Acceptance : **Given:** the user wants to take an RTO test exam And the user has a limited time of 60 minutes for the exam

Criteria **When:** the user begins the exam.

Then : the system should start a timer for 30 minutes And the user should be presented with the first exam question And the user should be able to answer questions within the time limit When 60 minutes elapse Then the system should automatically end the exam And the user should receive a message indicating the time limit has been reached And the user should see their score and feedback based on answered questions

5.3 Story-3: Select State and Language

Story # S3	:	As a user, I want to change my state or language, So that I want read only those particular state question and test
Priority	:	High
Estimate	:	L
Reason	:	State selection page is also need for user because all state having different question so this page is more required and take care about calling API.

5.3.1 Scenario# S3.1

Scenario# S3.1	:	Change State and Language Preferences
Prerequisite	:	Internet connection required
Acceptance Criteria	:	Given: the user wants to access questions and tests specific to a particular state. When: the user accesses their account settings And the user selects a new state preference, "NewState" And the user selects a new language preference, "NewLanguage". Then the system should update the user's preferences to "NewState" and "NewLanguage" And the user should see a confirmation message of the preferences update.

5.3.2 Scenario# S3.2

Scenario# S3.2	:	Access Questions and Tests for the Selected State
Prerequisite	:	Internet connection required
Acceptance Criteria	:	Given: the user has changed their state preference to "NewState" And the user has changed their language preference to "NewLanguage". When: the user navigates to the questions and tests section. Then the system should display questions and tests specific to "NewState" And the content should be in "NewLanguage" And the user can start accessing and answering questions for "NewState"

5.3.3 Scenario# S3.3

Scenario# S3.3	:	Change State Preference
Prerequisite	:	Internet connection required
Acceptance Criteria	:	Given: the user wants to access questions and tests specific to a different state. When: the user accesses their account settings And the user selects a new state preference, "Texas". Then :the system should update the user's state preference to "Texas" And the user should see a confirmation message of the state preference update.

5.4 Story-4: Add Question

Story # S4	:	As a admin, I want to add or edit question in API , So that I need one type of format for add or edit question.
Priority	:	High
Estimate	:	XL
Reason	:	This page is important and take care about which API database table affect to new changes.

5.5 Story-5: Statistics

Story # S5	:	As a user, I want to show all the number of vehicle , Road Accidents,Driving License, So that I need number of all figure.
Priority	:	Low
Estimate	:	XS
Reason	:	Statistics is not important for this project and number of figure for all is a information base that not more Affiance.

5.6 Story-6: License Procedure

Story # S6	:	As a user, I want to show step of the applying for the Licence , So that All Procedure having a all step from the beginning.
Priority	:	Low
Estimate	:	S
Reason	:	License Procedure is not important for this project and all step is a procedure

5.7 Story-7: Driving Laws

Story # S7	:	As a user, I want to show all laws of Driving, So that I required all Laws and those laws penalty I found easily in page.
Priority	:	Medium
Estimate	:	S
Reason	:	Because this page is like theory base page in this page not any sensitive information.

5.8 Story-8: Question Bank

Story # S8	:	As a user, I want to read all the question for the preparing examination, So that I need question and answer in one page.
Priority	:	High
Estimate	:	M
Reason	:	This Page is most Required for the application because its main part of this project.

5.9 Story-9: Practice Test

Story # S9	:	As a user, I want practice for the question bank question, So that I need all question having three option and when I choose the show me selected option is correct or not.
Priority	:	High
Estimate	:	M
Reason	:	This Page is most Required for the application because its main part of this project.

5.10 Story-10: FAQ

Story # S10	:	As a user, I want to about more information for vehical , So that I need all rule and why those required for driving .
Priority	:	Low
Estimate	:	S
Reason	:	This is not much important for the application.

6 Test Cases

Project Name:	RTO Learning License Test	Test Designed by:	K.K.K.
Module Name:	Exam	Test Designed date:	26/08/2023
Release Version:	1.0	Test Executed by:	K.K.K.
		Test Execution date:	26/08/2023
Pre-condition	internet connection should be required		
Test Case ID	Test Title	Test Type	Description
TC_001	Choose Right Answer and click next question	Functional	Exam in i choose Right answer and then i clicked to next question
TC_002	Choose Wrong Answer and click next question	Functional	Exam in i choose Wrong answer and then i clicked to next question
TC_003	click next question without choose answer	Functional	Exam in i without choose any answer and then i clicked to next question

Project Name:	RTO Learning License Test	Test Designed by:	K.K.K.
Module Name:	License Procedure	Test Designed date:	26/08/2023
Release Version:	1.0	Test Executed by:	K.K.K.
		Test Execution date:	26/08/2023
Pre-condition	internet connection should be required		
Test Case ID	Test Title	Test Type	Description
TC_004	Click On any Procedure Name	Functional	Procedure Name on click when show or not that procedure step
TC_005	Click On Back Arrow	Functional	when click on back array then i back to home page or not
TC_006	Varify All Procedure Step and Name	GUI	varify that all Procedure Step are Right

Project Name:	RTO Learning License Test	Test Designed by:	K.K.K.
Module Name:	RTO Code & Office	Test Designed date:	26/08/2023
Release Version:	1.0	Test Executed by:	K.K.K.
		Test Execution date:	26/08/2023
Pre-condition	internet connection should be required		
Test Case ID	Test Title	Test Type	Description
TC_007	Select State	Functional	Given State in choose one state
TC_008	Select City	Functional	Given City in choose one City
